

VNAGY CC BY-NC 4.0 Extended License (2026)

Author: Viktorija Nađ

“Draft: VNAGY CC BY NC 4.0 Extended”

“Framework and related materials licensed under extended non-commercial terms.”

1. General Terms

This license governs the VNAGY framework, including all technical diagrams, architectures, visual materials, models, and documentation.

It is based on the Creative Commons Attribution-NonCommercial 4.0 International License, with additional extended clauses that protect the technical identity, visual style, and integrity of the work.

2. Permitted Uses

Users are allowed to:

- share, copy, and redistribute the material
- adapt, transform, and build upon the material
- use the content for educational, research, academic, and non-commercial purposes
- use diagrams, architectures, models, and visuals with proper attribution

3. Attribution Requirements

All usage must clearly state:

“Based on VNAGY Framework by Viktorija Nađ (2026)”

Attribution must be visible, readable, and must not be removed, altered, or obscured.

4. Non-Commercial Restriction

The material may not be used for commercial purposes without prior written permission from the author.

Commercial use includes:

- selling products that incorporate VNAGY elements
- integrating the material into commercial software
- using the material in commercial cybersecurity solutions
- distributing the material for profit

5. Misrepresentation Prohibition

It is not permitted to:

- claim authorship or co-authorship
- present the work in misleading or deceptive contexts

- remove technical markings, logos, or identity elements
- imply endorsement, partnership, or affiliation without permission

6. Visual Identity Protection (VNAGY)

The VNAGY visual identity – including colors, diagrams, layouts, styles, graphic elements, technical models, and the complete design language – is protected under this extended license.

It is prohibited to:

- use the VNAGY logo in any product, publication, presentation, or digital asset without explicit written permission from the author
- modify, recolor, distort, animate, or repurpose the VNAGY logo in derivative works
- remove, hide, crop, or alter the VNAGY logo when it appears in official diagrams, visuals, or documentation
- incorporate the VNAGY logo into commercial branding, marketing, cybersecurity products, or promotional materials
- replicate or imitate the VNAGY visual identity in a way that may cause confusion, misrepresentation, or imply affiliation with the author
- use the VNAGY logo in automated systems, AI-generated content, or security tooling without proper attribution and explicit permission

Additionally, all VNAGY diagrams, visuals, architectures, flow models, tables, and technical illustrations are protected under this license.

It is prohibited to:

- reuse VNAGY diagrams or visuals in commercial products or services
- modify or rebrand VNAGY diagrams in a way that misrepresents the original work
- remove AI-Generated labels, author markings, or VNAGY identifiers from diagrams or visuals
- replicate VNAGY diagram style, color palette, or layout in commercial or competitive security frameworks

All VNAGY visual materials are considered protected trademark and design elements. Their usage must respect the original context, integrity, and design intent.

7. Technical Diagrams & Architectures

All technical models, flows, tables, and architectures are covered by this license. Derivative works must:

- preserve technical integrity
- include proper attribution
- not be used in commercial security systems without authorization

8. Extended Clauses

This license includes additional protections:

- prohibition of use in automated systems without attribution
- prohibition of use in systems generating commercial security signals
- requirement to preserve the original structure and intent
- protection of academic and technical value of the work

9. Final Provisions

This license is effective from 2026.

The author, Viktorija Nađ, retains all rights not explicitly granted by this license. Commercial usage requires explicit written permission from Viktorija Nađ.
